

SAN FRANCISCO BAY  
CONSERVATION AND DEVELOPMENT COMMISSION

# EXECUTIVE DIRECTOR RECRUITMENT

## UNIQUE OPPORTUNITY

The San Francisco Bay Conservation and Development Commission (BCDC) is seeking a dynamic, professional Executive Director to provide vision and leadership to an evolving and forward-thinking Commission. We are looking for someone who not only possesses the appropriate background, but also someone who is passionate about the San Francisco Bay and about balancing environmental protection and public access with appropriate shoreline development. BCDC is dedicated to the protection and enhancement of the San Francisco Bay and to the encouragement of the Bay's responsible use.

## ABOUT BCDC

The award-winning San Francisco Bay Conservation and Development Commission is a small state agency located in San Francisco's Financial District close to public transportation.

BCDC has regulatory and planning authority over development in the San Francisco Bay and along the Bay's nine-county shoreline. BCDC is guided by the McAteer-Petris Act, the *San Francisco Bay Plan*, the Suisun Marsh Preservation Act, the federal Coastal Zone Management Act, and other applicable laws, special plans and regulations and policies adopted by the Commission.

As a result of a grassroots movement led by Save the Bay, the State Legislature created BCDC as a state agency in 1965 to plan for and manage growth in and along the San Francisco Bay shoreline. After a three-year planning study, the Commission adopted the *San Francisco Bay Plan*, which provides the blueprint for the conservation and development of the Bay. The State Legislature adopted the *San Francisco Bay Plan* and made BCDC a permanent state agency in 1969. In 1977, the Commission's authority was expanded to provide special protection of the Suisun Marsh.

BCDC continues to update its plans for the Bay and shoreline while managing development through its permitting.

While BCDC focuses on protecting the Bay's resources and promoting its wise use, the Commission also addresses emerging issues including sea level rise, involving implementation of the Bay Plan's climate change policies, coordinating regional climate change initiatives and development of a sustainable communities strategy among the four regional agency partners of the Joint Policy Committee (JPC); improving access to the Bay for persons with disabilities; and the impact of diversions of fresh water and sediment inflows from the Delta into the Bay.

BCDC's 40-member staff takes pride in its high level of professionalism and dedication. Our staff includes planners, analysts, engineers, attorneys, designers, and administrative and clerical support personnel.
