

Louis Armstrong

Mr. Louis Armstrong is a Senior Vice President of URS and the Manager of Northern California Operations, which employs approximately one-thousand engineers and scientists in nine offices throughout the Bay Area and the Central Valley. He has been with the company since 1990 and served as Director of Marine Services in Asia from 1996 to 1997, and Vice President of International Project Development from 1998 to 2000.

Mr. Armstrong's technical career has been focused on providing solutions to engineering and environmental issues in coastal, marine and estuarine environments. He holds a BS in Oceanography from the University of Washington and a MS in Civil Engineering from Stanford University.
