Challenge #1: The Current Drought

Where we stand today — New State regulations —
Best practices from Bay Area water agencies and local governments

Challenge #2: Long-Term Changes for the Bay Area

Latest research — Impacts on health, natural systems, and the economy —
Overcoming key barriers — How we will succeed as a region

CRI brings together academic experts from UC Berkeley, Lawrence Berkeley Lab, UC Davis, and Stanford University with Bay Area climate practitioners to tackle our region's most critical climate challenges
