

BPC EXPERT BRIEFING

Marinas & Boatyards

Wednesday, March 21, 2018

11:00 am – 1:30 pm

Brickyard Cove Marina
1150 Brickyard Cove Road
Brigantine Building, 3rd Floor
Richmond, CA 94801

AGENDA

- 11:00 am** **WELCOME AND INTRODUCTIONS**
Dr. Joshua Burnam, *Anchor QEA and Chair of Marinas & Boatyards Committee,*
Bay Planning Coalition
- 11:10 am** **PRESENTATION: MARINAS AND CLEAN BOATING**
Diane Isley, *Secretary, Clean Marina Program*
- 11:40 am** **EXPERT PANEL: RISING SEA LEVELS AND OTHER CLIMATE CHANGE IMPACTS**
Moderator: **Dr. Josh Burnam**, *Anchor QEA*
Panelists: **Dr. Gary Griggs**, *Professor of Earth & Planetary Sciences,*
University of California at Santa Cruz
Dr. Kris May, *Principal, Climate Adaptation & Engineering,*
Silvestrum Climate Associates, LLC
- 12:25 pm** **LUNCH BREAK**
Lunch will be provided.
- 12:45 pm** **EXPERT PANEL: OPERATING FOR GROWTH IN SAN FRANCISCO BAY**
Moderator: **Paul Kaplan**, *Founding Partner, KKMI*
Panelists: **Chad Peddy**, *Environmental Safety & Health Manager,*
Bay Ship & Yacht Company
Randy Short, *Chair, CA Department of Parks and Recreation,*
Boating and Waterways Commission
Cort Larned and David Wells, *Partners, 101 Surf Sports*
- 1:30 pm** **CLOSING REMARKS**
John A. Coleman, *Chief Executive Officer, Bay Planning Coalition*

SPEAKER BIOGRAPHIES

Dr. Josh Burnam, Anchor QEA

Dr. Joshua Burnam, MPH, D.Env., is a principal environmental planner at Anchor QEA, LLC. His area of practice is primarily the planning, design, construction and oversight of projects relating to waterfront redevelopment, industrial development, navigation, coastal infrastructure, dredging, and sediment management. Prior to joining Anchor QEA, Dr. Burnam was a senior regulatory project manager and regional expert for dredging, port development, and energy infrastructure for the U.S. Army Corps of Engineers (USACE) Regulatory Program. He served as the Los Angeles District regulatory dredging coordinator, chairman of the Dredging Operations Subcommittee of the Los Angeles Contaminated Sediments Task Force, and the lead regulator for numerous dredging and Port projects.

John Coleman, Bay Planning Coalition

John Coleman is the Chief Executive Officer of the Bay Planning Coalition, a non-profit, public benefit, membership corporation, to advocate for the balanced regulation and use of Bay-Delta resources to ensure that commerce, recreation and the environment thrive in the region. The Coalition's 175 members represent a broad spectrum of public and private Bay-Delta entities, including ports, maritime and shoreline industry, labor unions, local government, residential and commercial builders, recreational users and engineering, planning, environmental science, construction and legal professionals.

Coleman was elected in 1990 and since re-elected to the Board of Directors of the East Bay Municipal Utility District (EBMUD). Coleman was elected to serve as the President of the Association of California Water Agencies (ACWA) in December 2013. Coleman currently serves in the following capacities: Board Member of the Marine Exchange of the San Francisco Bay Region; member of the Freeport Regional Water Authority (FRWA); Chair of the Upper Mokelumne River Watershed Authority (UMRWA); Board Member of the East Bay Leadership Council; member of the San Francisco Bay Restoration Authority Advisory Committee; member of the East Bay Economic Development Alliance Legislative Committee, and Board Member of DERWA, the joint powers authority for recycled water service provided by EBMUD and the Dublin-San Ramon Services District.

Dr. Gary Griggs, University of California at Santa Cruz

Dr. Gary Griggs received his B.A. in Geological Sciences from the University of California Santa Barbara (1965) and a Ph.D. in Oceanography from Oregon State University (1968). He has been a Professor of Earth & Planetary Sciences at the University of California Santa Cruz for 50 years and was Director of the Institute of Marine Sciences for 26 years, where he led the development of a Coastal Science Campus. His research, teaching and writing have been focused on the coast of California and include coastal erosion and protection, coastal engineering and sea-level rise. He just completed his 9th and 10th books.

In 1998 he was given the Outstanding Faculty Award at U.C. Santa Cruz and the Alumni Association honored him with a Distinguished Teaching Award in 2006. The California Coastal Commission and Sunset Magazine named him one of California's Coastal Heroes in 2009, and in 2010 he was elected to

the California Academy of Sciences. He has served on three National Academy of Sciences Committees, and in 2016 was appointed to the California Ocean Science Trust. In 2017 he chaired the California Ocean Protection Council-Science Advisory Team Working Group on Sea-Level Rise Guidance for California and is presently serving as chair of California's 4th Climate Assessment Committee on Coasts and Ocean.

Diane Isley, Clean Marina Program

Diane Isley is the Harbor Master for 32 years at Emery Cove Yacht Harbor located on the San Francisco Bay in Emeryville. Emery Cove is a private 'dockominium' marina with 450 slips. Diane has been involved with the Clean Marine Program since 2006 as a Lead Reviewer and currently on the Board of Directors since 2012.

She has been around the water her entire life; born at a boatyard on Lake Michigan owned by her family. She is also a member of the Bay Planning Coalition and Past President of the California Association of Harbor Masters & Port Captains.

Paul Kaplan, KKMI

Paul Kaplan is a founding partner of KKMI, a company that operates service/repair facilities in Pt. Richmond and Sausalito. A San Francisco native, Paul's early ambitions as a marine biologist were altered when he took a part-time job and became the youngest licensed yacht broker in California. After working as a broker for many years Paul took a hiatus to find the marine industry calling again. In 1996 Paul co-founded KKMI. KKMI has been recognized by the California Water Environment Association as their "Small Industry of the Year" and the American Boat Builder's and Repairers Association "Boatyard of the Year". Paul's passion for all things nautical and dedication to the marine industry allows him to serve as a Director of the Marine Recreation Association.

Cort Larned, 101 Surf Sports

Cort Larned is a Partner of 101 Surf Sports, a full service water sports sporting goods retailer serving the San Francisco Bay Area and headquartered in San Rafael, California. Featuring one of the biggest water sports inventories on the west coast, 101 Surf Sports provides services for stand-up paddle-boarding, windsurfing, kayaking, outrigger canoe, and kiteboarding. Cort and his colleagues are focused on building a community of people that love the water as much as they do and then paying it forward. Visit 101 Surf Sports at 1529 Seaport Boulevard in Redwood City, California.

Dr. Kris May, Silvestrum Climate Associates, LLC

Dr. Kris May is a Co-Founder and Principal with Silvestrum Climate Associates, LLC. Kris is an engineer and scientist with over 20 years of experience providing leadership and technical expertise related to climate change resilience and adaptation strategy development, with an emphasis on coastal environments, sea level rise, and extreme hazard analysis. Kris is currently a lead author on the Fourth National Climate Assessment for the United States Global Climate Research Program.

Chad Peddy, Bay Ship & Yacht Company

Chad Peddy, REM is a very detail oriented person with 15 years of experience in the Environmental Health and Safety Field. Chad's formal education is using a systems approach to earth science. Chad excels when working hand in hand with the various regulators. Working with the State Water Resources Control Board he was instrumental in incorporating landside operations into the individual Dry-Dock NPDES permit. Working with OSHA Chad has been able to delineate Fed-OSHA and Cal-OSHA jurisdictional boundaries. Mr. Peddy balances business needs within local, state, and federal regulations. This requires leadership, innovation, and networking throughout the regulated community. Mr. Peddy not only is able to identify the problem, but identifies implementable solutions.

Randy Short, California Department of Parks and Recreation, Boating and Waterways Commission

Randy Short was appointed to the Boating and Waterways Commission, by Governor Brown, in 2014. He is now the Chairman of the Commission. Randy has been the President/CEO and a principle with Almar Management Inc. and Almar Marinas for 18 years. He has designed, developed, constructed and managed marinas of all sizes both domestically and internationally for 30 years. The many projects include the renowned Marina Cabo San Lucas in Mexico and the beautiful Ko Olina Marina in Hawaii just to name a few. He is a past president of MRA and many other professional organizations.

David Wells, 101 Surf Sports

David Wells is a Partner of 101 Surf Sports, a full service water sports sporting goods retailer serving the San Francisco Bay Area and headquartered in San Rafael, California. Featuring one of the biggest water sports inventories on the west coast, 101 Surf Sports provides services for stand-up paddle-boarding, windsurfing, kayaking, outrigger canoe, and kiteboarding. David and his colleagues are focused on building a community of people that love the water as much as they do and then paying it forward. Visit 101 Surf Sports at 1529 Seaport Boulevard in Redwood City, California.

UPCOMING BPC EVENTS

BPC Expert Briefing

Regulatory and Industry Impacts on Air Quality

Monday, March 26, 1:00 pm to 3:30 pm

Port of Oakland

BPC Workshop

Getting Shoreline Restoration & Resiliency Projects Constructed in San Francisco Bay

Tuesday, April 17, 9:00 am to 1:00 pm

Port of San Francisco

BPC Spring Summit

Friday, May 11, 8:00 am to 2:00 pm

Oakland Scottish Rite Center
