*Current issues affecting the Sacramento-San Joaquin Delta.*

## New online educational resource about the Delta is now live

A California Sea Grant Fellow at the Delta Stewardship Council, Heidi Williams, has just launched a new website called "A Beginner's Guide to the Sacramento-San Joaquin Delta." This guide serves as a resource for communicating the identity and importance of the Delta through interactive features such as clickable maps, audio clips, and pull quotes. It is intended for a wide audience, from potential tourists to Delta professionals looking for a refresher on the basics. The website can be reached here.

## Fremont Weir Groundbreaking Marks Milestone for Yolo Bypass Fish Passage

The California Department of Water Resources, U.S. Bureau of Reclamation, and California Natural Resources Agency celebrated the groundbreaking of a critical habitat improvement project in the Yolo Bypass.

## SWRCB Delta RMP awards RFP to Deltares

The State Water Resources Control Board's Delta Regional Monitoring Program has posted a Notice of Award for the Pesticides Interpretive Report RFP to Deltares for their proposal to prepare an analysis and interpretation of pesticides and toxicity monitoring data in the Sacramento-San Joaquin Delta

## Indicators of climate change in California

From record temperatures to proliferating wildfires and rising seas, California is already feeling the significant and growing effects of climate change, according to a new report by CalEPA and the Office of Environmental Health Hazard Assessment. This report tracks 36 indicators of climate change and its effects across the state.

## Isleton Second Saturdays

Saturday, June 9, from 1:00 p.m. to 6:00 p.m. on Main Street in Isleton (Map). Explore Isleton every Second Saturday from May through October. Join participating businesses for discounts, free hors d'oeuvres, beverages, music, history, and more! Visit the Isleton Chamber of Commerce website for details.

## Delta Regional Monitoring Program Technical Advisory Committee meeting

The Delta Regional Monitoring Program's Technical Advisory Committee will be meeting June 12, from 10 a.m. to 3:30 p.m., at the Sacramento Regional County Sanitation District Office (Map). To view the agenda, click here.

## Draft Cycle 4 Proposition 1 Grant Guidelines available for public comment

The Delta Conservancy has released its draft Cycle 4 Grant Guidelines (updated at 11 a.m. on June 1, 2018) for public review and comment. Please submit comments via email. The public comment period will close on June 29, 2018.

On June 19th, the Delta Conservancy will hold a public workshop to provide information about the revised Grant Guidelines and to prepare applicants for the upcoming grant proposal cycle. Public comment will be invited at the workshop. For more information, visit the Delta Conservancy's Training Opportunities Webpage.
