Bay Planning Coalition

Leading policy advocacy and consensus building on issues facing the San Francisco Bay
Membership

Today the San Francisco Bay Area is grappling with the severe impacts of climate change, unprecedented gridlock on our highways and transit systems, and a regional housing crisis which are collectively threatening both our economic vitality and quality of life. These extraordinary challenges present a new opportunity for Bay Planning Coalition to play a critical role in how we plan for the future to ensure continued economic growth that also protects the environmental sustainability of the region. Join us to help influence the future of the San Francisco Bay and its watershed.

Bay Planning Coalition is a leader in building consensus on the critical issues facing the San Francisco Bay and surrounding region. We provide expert facilitation to advance fair and reasonable regulation, and we advocate on behalf of our members on a wide range of policy issues related to climate resilience, transportation, air quality, regulatory compliance, and land use planning.

By becoming a member, you are joining a robust network of stakeholders in helping to shape the Bay’s economic future. The many policy events we host throughout the year provide excellent opportunities to engage directly with policymakers and network with other leaders around the region.

About

A broad coalition providing expert advocacy and facilitation to advance the industries and infrastructure that support a strong regional economy and resilient environment within the San Francisco Bay and waterfront.

Founded in 1983, the Bay Planning Coalition is a non-profit, membership-based organization representing a broad spectrum of public and private entities collectively advocating for strong economic growth and environmental sustainability of the region. We work to navigate through the overlapping regulatory jurisdictions that touch the Bay to support sustainable growth, and we influence the development of sound regional policy and planning to build a more vibrant Bay Area.
Get Involved

Air Quality Committee
- Influence the development of pragmatic air quality regulations that build resilience and support continued economic growth in the Bay Area.
- Advocate for funding to support emission reduction investments at Bay Area ports and refineries.
- Support for practical, consistent, and predictable regulation of clean energy projects, especially those that provide incremental improvements promptly.

Dredging & Beneficial Reuse Committee
- Advocate for the streamlined permitting and regular dredging of critical waterways.
- Direct funds to dredge-related science through the SFEI Regional Monitoring Program.
- Champion beneficial reuse of dredged sediment for shoreline resiliency projects.

Energy & Water Committee
- Educate BPC members and the public on the critical economic impacts of drought, water security, and energy supply issues, and the nexus thereof, facing the Bay Area and its economic reach.
- To the extent that is reasonable (and providing no conflict exists), participate in regional collaboration efforts related to water project regulatory issues.
- Advocate for new policy and regulatory solutions to ensure resilient supply of both water and energy.

Government Affairs Committee
- Support legislation that advances economic growth and environmental protects in the San Francisco Bay Area region.
- Utilize BPC’s advocacy potential to promote positive outcomes for policies of concern.
- Develop a strong committee membership of varying interests to provide well-informed information.

Sustainable Waterfronts Committee
- Advocate for new funding and incentivize regional collaboration to plan, fund, and implement climate adaptation projects in the Bay Area.
- Improve the transparency and efficiency of permitting of shoreline projects.
- Influence the development of regional planning processes to advocate for the regional coordination of climate adaptation and resilient transportation projects.

Resilient Transportation Committee
- Promote the expansion of water transit services and terminals.
- Support transit-oriented development at ferry terminals.
- Strengthen the resilience of transportation infrastructure to support the movement of people and goods.

Our Goals

1. Influence and shape regional planning efforts
2. Advocate and facilitate an efficient, coordinated, and timely regulatory development and permitting process.

Events

*BPC strives to maintain a space to network, learn about industry developments, assist in regional sustainability efforts, and utilize the advocacy potential of our coalition.*

Sample of Events:

Events -
- 2021 Spring Summit: Building a Resilient Future for the Bay Area
- 2021 Annual Lunch - featuring Danny Wan, Port of Oakland

Expert Briefings & Workshops -
- What the Infrastructure Bill Means for the Bay Area
- Supply Chain Strategies
- Dredging & Beneficial Reuse Workshop
- CEQA Update
- Decarbonizing Commutes

Upcoming Annual Events -
- 2022 Energy & Water Nexus Summit
- 2022 Fall Summit – Resiliency Funding Follow-Up
- Dredging & Beneficial Reuse Workshop
- CEQA Update
- Annual Meeting/Luncheon

Continuing through the year, additional events will be scheduled to address new policy developments and the coalition’s interests. BPC welcomes your input on potential events or workshops.
