## Dredging & Beneficial Reuse Committee Meeting

*Tues., April 22nd | Virtual*

Join Bay Planning Coalition's Dredging & Beneficial Reuse Committee for our first meeting of the year on Tuesday, April 22, at 1:00 PM.

As our first meeting of the year, the Committee will discuss priorities for 2025, as well as industry updates since our last engagement, including:

- A recap of the October 2024 Dredging Workshop
- Updates on the Long-Term Management Strategy (LTMS)
- Updates from the Regional Monitoring Program (RMP)
- Policy developments affecting dredging and reuse

## Water Resources Committee Meeting

*Weds., April 23rd | Virtual*

Join BPC's Water Resources Committee meeting to hear a presentation by Kristina Hill from UC Berkeley on how rising coastal groundwater due to sea-level rise will impact contaminated coastal sites and underground infrastructure.

This meeting will also cover the committee name rebrand and other committee items.

Read more about Kristina Hill and register for the committee meeting below.

# 2025 Member Reception

On March 20th, we hosted a sold-out 2025 Member Reception, bringing together BPC members, regulators, and regional stakeholders for a night of networking and celebration. It was the perfect chance to meet new people and dive into some great conversations.

We were excited to introduce BPC's new CEO, Laura Tam, and honored to present the 2024 Member of the Year award to Ane Deister, our former Board President, for her incredible contributions to the organization.

It was a fun, engaging evening, and we're so glad everyone could join us for such a special event!

---

*Thank you to our generous sponsors for their support in making this event a success!*

## Announcements

### BCDC Releases New SWAP Action Plan

This San Francisco Bay Sediment & Soil Beneficial Reuse Action Plan for Wetland Restoration Adaptation (Action Plan or Plan) is a foundational strategy for how the Bay Area can more effectively and efficiently beneficially reuse sediment and soil to sustain and adapt the Bay's wetlands in light of increased shoreline flooding due to sea level rise. Created through a collaborative process, this Plan will guide agencies, dredgers, flood control managers, restoration practitioners, and other stakeholders on the steps necessary to improve and increase beneficial reuse of sediment and soil in wetland restoration and sea level rise adaptation projects.

[Read The Plan Here](#)

**NOTE:** Additional BPC engagements (committee meetings, workshops, networking events) will be announced once confirmed.

To ensure you receive our announcements, please complete the sign-up form or bookmark BPC's events calendar. Both resources are linked below.
